

LIMITED SITE ACCESS AGREEMENT

This Limited Site Access Agreement ("Agreement") is made by and between McMillan McGee Corp. ("McMillan") and the Third Site Trust (the "Trust"):

WHEREAS, the Trust controls access to the portions of the real property comprising the Third Site Superfund Site in Boone County, Indiana ("the Site"), where an environmental response action is being implemented under the direction of the U.S. Environmental Protection Agency;

WHEREAS, McMillan was engaged by the Trust to design and implement an EPA-approved remedy within the sheet-pile enclosed DNAPL area of the Site known as Electrical Resistance Heating ("ERH");

WHEREAS, McMillan implemented the ERH remedy but the EPA-mandated cleanup objectives for the Site have not been met, giving rise to a dispute between McMillan and the Trust concerning the reasons for not meeting the objectives;

WHEREAS, the Trust is in the midst of implementing an EPA-approved sampling plan at the Site to determine the location of the residual contamination, and the Trust has consented to McMillan's request for one of its personnel to be allowed access to the Site to observe such sampling without interfering with the same;

WHEREAS, on July 22, 2020, McMillan requested, by way of the attached emails, permission for an additional representative and/or contractor to access the Site for the sole purpose of maintaining McMillan's ERH equipment as set forth below;

WHEREAS, the Trust has agreed to allow McMillan permission for an additional representative to access to the Site for such equipment maintenance purpose consistent with the terms and conditions contained herein.

NOW THEREFORE, in consideration of the mutual terms and covenants herein contained and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. The Trust hereby grants permission to McMillan, with prior notice to the Trust, to enter upon the Site in order to perform the following limited preventative maintenance activities:

Pumps - freeing seized impellers & replacing seals;

Air compressor - repairing freeze damage;

Control panel - repairing wires damaged by rats and

Checking for other weather-related and wear & tear damage, and repairing such,

referred to hereafter as the "Limited Preventative Maintenance," as well as permission to enter the Site for the limited activities noted in (b) and (c) below. The Trust and McMillan agree that McMillan's access to the Site is strictly limited to (a) the implementation of the Limited Preventative Maintenance; (b) observing without interfering with the EPA-approved sampling that is currently under way at the Site; and (c) the temporary relocation of McMillan's ERH equipment needed to conduct the sampling in accordance with the EPA-approved sampling plan. In the event that McMillan identifies any additional ERH system maintenance activities or sampling recommendations at the Site beyond the Limited Preventative Maintenance, McMillan agrees that it shall submit such proposed activities and/or safety measures in writing to the Trust for its consideration. In the event McMillan identifies any safety issues or recommendations at the Site, it shall notify the Trust and its on-Site representatives immediately.

2. McMillan agrees that neither it nor anyone on its behalf shall remove any ERH related equipment from within the fenced-in area of the Site, although McMillan shall temporarily relocate and thereafter restore as needed such equipment to an alternative location(s) within the fenced-in area as will facilitate the Trust's ongoing EPA-approved sampling or other Site-related activities.

3. McMillan agrees that neither it nor anyone on its behalf shall energize the ERH system or sample or test soils, groundwater, or any other environmental media at the Site without prior notice to the Trust and the written approval of the Trust.

4. McMillan agrees it will not, directly or indirectly, interfere with or disturb any environmental sampling or other activities of the Trust or its agents, contractors and other representatives at the Site.

5. McMillan shall comply with all state, federal and local laws and regulations applicable to its presence at the Site and as to its activities at the Site, including all environmental and health and safety laws and regulations.

6. McMillan agrees that neither the Trust nor its agents, contractors or other representatives shall be held responsible or liable for injury, death,

damage, or loss of any kind incurred by McMillan and its representatives arising out of or in connection with the presence or activities of McMillan personnel, including McMillan contractors, agents, employees or other representatives, at the Site under this Agreement. McMillan shall defend, hold harmless and indemnify the Trust, its agents, contractors and representatives from and against any losses, damages, claims, causes of action or demands of whatever nature (hereafter, "Loss") which arise from the presence or actions of McMillan representatives at the Site; provided, however, that the Trust shall not be entitled to indemnity with respect to Loss that has been finally adjudicated by a court of competent jurisdiction to have been directly caused by the Trust's gross negligence or willful misconduct.

7. McMillan and the Trust reserve and do not waive any and all prior existing contractual rights and obligations.

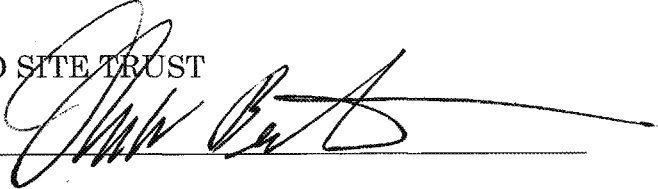

AGREED TO THIS 30 DAY OF July, 2020:

MCMILLAN MCGEE CORP.

Very good. I will notify the site security firm to allow site access for Mr. Szollesi tomorrow and for the next two weeks. Please confirm that Mr. Szollesi will be performing the preventative maintenance tasks you listed and no other Third Site-related activity. In other words, neither Mr. Szollesi nor anyone else from McMillan-McGee will be conducting any sampling, energizing or activating the ERH system in any way, removing any ERH equipment from the Site, or performing any other Third Site-related work without EPA's and the Trust's knowledge and consent.

Thanks.

Peter Racher

Mr. Racher,

We'd like to get Andrei back out on site to do preventative maintenance on the treatment equipment. Can you please see if he can be added to the access list, starting tomorrow? Probably ~2 weeks.

Cheers,

David A. Rountree

Hi David,

Only the Third Site Trust can add folks to the access list. Please contact Peter Racher for that.

Best Regards,

Andy
